## DETAILED ACTION

### *Remarks*

1. In response to communications filed on 9 November 2007, claims 1, 3-5, 9-12, 15, have been amended. Claims 1-5, 7-12, 14-17 are presently pending in the application.

### *Claim Rejections - 35 USC § 112*

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-5, 7-12, 14-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Independent claims 1, 9, and 15 recite "assigning an aging factor to each time-based weight" or "an aging factor assigned to the time-based weight". From the specification an aging factor appears to be "based on the time from publication for each search result" and not related to "time-based weight" which is related to documents that link to the search result. See the specification page 9, lines 12-16 and page 11, lines 9-13 for the description of "aging factor". See the specification page 9, lines 17-29 for the description of "associating a time-based weight with each identified in-link".

Claims 2-5, 7, and 8 are rejected for depending on rejected independent claim 1.

Claims 10-12, and 14 are rejected for depending on rejected independent claim 9.

Claims 16-17 are rejected for depending on rejected independent claim 15.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-5, 7, and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 9 recite the limitation "the section portion". There is insufficient antecedent basis for this limitation in the claims. It is believed that it was meant --the second portion--.

Claims 2-5, 7, and 8 are rejected for depending on rejected independent claim 1.

Claims 10-12, and 14 are rejected for depending on rejected independent claim 9.

Claims 16-17 are rejected for depending on rejected independent claim 15.

#### ***Allowable Subject Matter***

6. Claims 1-5, 7-12, 14-17 would be allowable if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 1st paragraph, set forth in this Office Action, because it is neither implicit nor obvious for the prior art to apply a "time-based weight" to a document containing "in-links" to a search result along with applying "an aging factor" to that "time based-weight".

It is noted that it is not clear from the specification, as indicated in the rejection above, how one would assign an aging factor to "each time-based weight".

#### ***Response to Arguments***

Art Unit: 2164

7. Applicant's arguments with respect to claims have been considered but are moot in view of the new grounds of rejection.

### *Conclusion*

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
